

“The bottom line is important but not a compelling reason to be in business.”

We go beyond business as usual, both as a premier IT services firm and as a Social Enterprise that puts purpose before profit. We're high tech with a human touch, and we believe it's the perfect partnership.

**Passion** – Social Enterprise — it's time to put people, planet and purpose first ([www.socialenterprisetrust.org](http://www.socialenterprisetrust.org)).

**Favorite Food** – Anything cooked by my fabulous husband and shared with my awesome eleven-year old.

**Peer to Peer Advisors** – It's important to surround yourself with people who can give you straight feedback that's based on experience. Peer to Peer give me that resource. I come with questions and leave with ideas, support, and a network of friends I can call on.
